left to return to Charleston before he found out if the report was satisfactorily completed. In view of the exceptional good sighting and number of persons observing this object, he felt he should report it again.

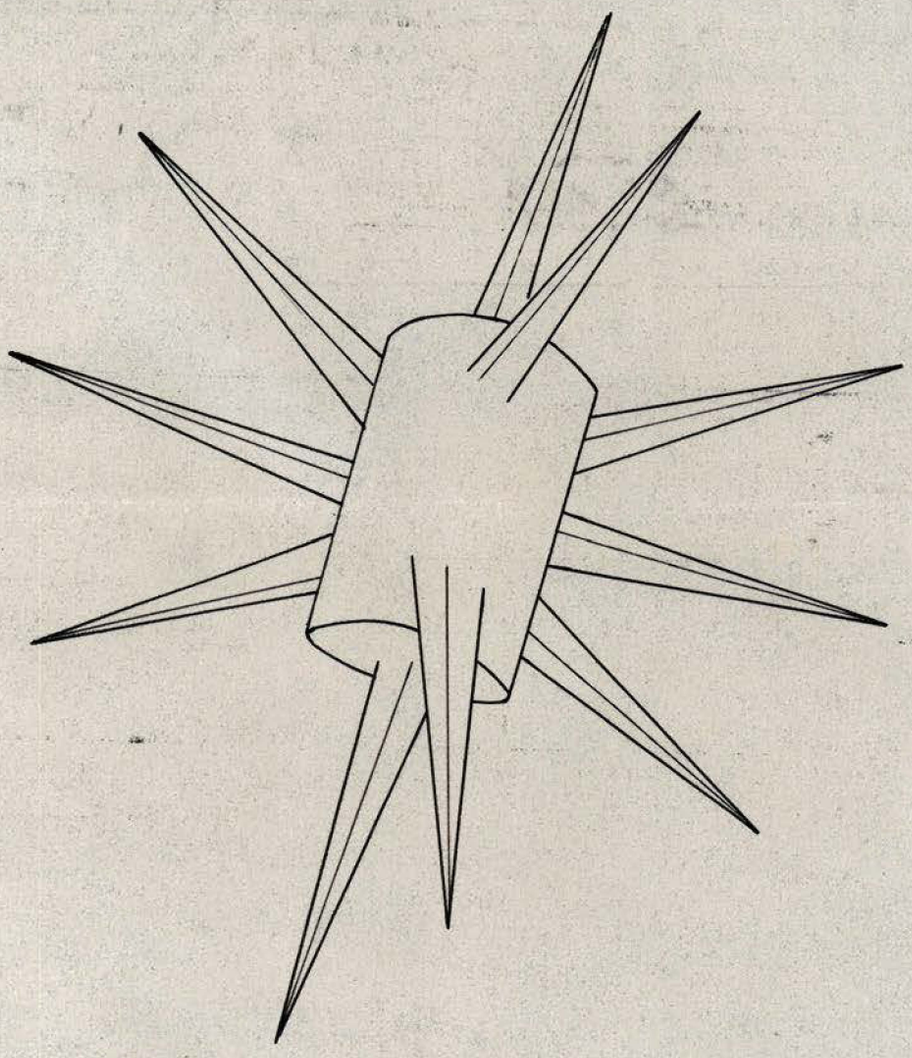

3. Mr. George R. Onufer was the only one I contacted as his brother was not available. Subject has been on active duty as an officer in the USAF for approximately ten years, flying both jet and multi-engine aircraft and appears to be completely reliable. In view of the fact that action has most probably been taken and distance involved, no attempt has been made to investigate or analyze this report.
