SUBJECT

(Uncld) Overfly of Unidentified Object

SUMMARY (*Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112a.*)

M/Sgt Lionel Hawkesworth, US Army Attache Office, informed the reporting officer that he, with his wife and servant, observed a high vapor trail estimated above 60,000 feet going east to west over Tehran. Source stated that this observation was viewed for 3½ minutes at 1154 hours local time on 23 Oct 57. He stated that the object itself could not be seen, nor could any noise be heard. The contrail was in a straight line in the east, where the vapor trail was first formed and starting to disintegrate, it appeared that it was formed by an over end rolling motion. The contrail entered or went above a high thin cirrus cloud in the west and disappeared.

COMMENTS OF THE PREPARING OFFICER:

This information was sent by our TWX C-100 to Hq USAF with info copies to USAFE and the Air Attaches in Afganistan, Iraq, Syria and Russia.
